-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because it contains the language of the claims.

Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

In claims 1, 3, and 9, it is unclear how the units can receive wrap from the film feed units and form it into a tube around the packages, since the film gripper moves from side to side but not around the package and its only movement is transverse to the direction of travel.

Art Unit: 3721

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1, 2, 4-16, 18, and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 line 8, the “stations” have no antecedent basis.

In claim 1 line 9, the “first carriage” have no antecedent basis.

In claim 9 line 17, the word “outside” is ambiguous, in that it could mean the feed station is already outside the transporting surface or that it is moved outside as part of the function described.

In claim 10 lines 1-2, the “releasing and wrapping step” have no antecedent basis.

In claim 11 lines 1-2, the “releasing and wrapping step” have no antecedent basis.

In claim 12 line 2, “passing the units” have no antecedent basis.

In claim 13 line 2, “passing the units” have no antecedent basis.

In claim 18 line 2, “units” have no antecedent basis.

In claim 20 line 1, “unit” have no antecedent basis.

In claim 20 lines 4-5, “fixed arm” have no antecedent basis.

Art Unit: 3721
